Fire Department Annual Permit Application Instructions
(for current Garage and Gasoline Licensees)

On December 20, 2002 the Board of Fire Prevention Regulations amended the requirements for the storage of flammable and combustible products. The amended code requires all Licensees to obtain a Fire Department Annual Permit in addition to the license. The application fee is \$50. The fee is for the inspection of the storage. Return the completed application and fee to Fire Headquarters 491 Broadway Cambridge, MA 02138 (make checks payable to the City of Cambridge). The local fire company, upon satisfactory inspection, will issue the permit.

Only list the total amounts by Class. (do not list each product). The amounts listed should match what you are currently licensed for. All flammable storage must be included (automobiles, generators, gasoline for snow blowers or lawnmowers, any combustibles used for maintenance, etc.

Important: The license must be in the name of the property owner. If you are a tenant, and are holding the license, then the license must transfer to the property owner. The tenant will only be responsible for the permit. If you are a licensee who is also the property owner, a permit must be applied for.

If you have any questions, please call the Fire Prevention Office at (617) 349-4918 or contact us at FirePermitInfo@Cambridgefire.org
